Independent Auditor's Report

To the Board of Education
Lapeer Community Schools of Lapeer County

Report on the Financial Statements

We have audited the accompanying financial statements of the the governmental activities, the major fund, and the aggregate remaining fund information of Lapeer Community Schools of Lapeer County (the "School District") as of and for the year ended June 30, 2015 and the related notes to the financial statements, which collectively comprise Lapeer Community Schools of Lapeer County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the the governmental activities, the major fund, and the aggregate remaining fund information of Lapeer Community Schools of Lapeer County as of June 30, 2015 and the respective changes in its financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

To the Board of Education
Lapeer Community Schools of Lapeer County

Emphasis of Matter

As discussed in Note 1 to the basic financial statements, effective July 1, 2014, the School District adopted the provision of Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions* and GASB No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. The School District's unrestricted net position has been restated as of July 1, 2014 as a result of this change in accounting principle.

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension system schedules of funding progress and employer contributions, and the major fund budgetary comparison schedule on pages 43-45 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Lapeer Community Schools of Lapeer County's basic financial statements. The other supplemental information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements.

The other supplemental information, as identified in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplemental information, as identified in the table of contents, is fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Board of Education
Lapeer Community Schools of Lapeer County

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 20, 2015 on our consideration of Lapeer Community Schools of Lapeer County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lapeer Community Schools of Lapeer County's internal control over financial reporting and compliance.

Lapeer Community Schools of Lapeer County

Management's Discussion and Analysis

This section of the 2015 annual financial report of Lapeer Community Schools of Lapeer County (the "School District") presents our discussion and analysis of the School District's financial performance during the year ended June 30, 2015. Please read it in conjunction with the School District's financial statements, which immediately follow this section.

Using this Annual Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Lapeer Community Schools of Lapeer County financially as a whole. The government-wide financial statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short term as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the government-wide financial statements by providing information about the School District's most significant fund - the General Fund - with all other funds presented in one column as nonmajor funds. The remaining statements, the statement of fiduciary net position and the statement of changes in fiduciary net position, present financial information about activities for which the School District acts solely as an agent for the benefit of students and parents. The annual report includes the following:

Management's Discussion and Analysis (MD&A)

Basic Financial Statements

Government-wide Financial Statements Fund Financial Statements

Notes to the Basic Financial Statements

(Required Supplemental Information)
Budgetary Information for Major Fund
Pension Plan Schedules

Other Supplemental Information

Reporting the School District as a Whole - Government-wide Financial Statements

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net position and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets, deferred outflows, liabilities, and deferred inflows using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

Lapeer Community Schools of Lapeer County

Management's Discussion and Analysis (Continued)

These two statements report Lapeer Community Schools of Lapeer County's net position - the difference between assets and deferred outflows, compared to liabilities and deferred inflows, as reported in the statement of net position - as one way to measure the School District's financial health or financial position. Over time, increases or decreases in the School District's net position - as reported in the statement of activities - are indicators of whether its financial health is improving or deteriorating. The relationship between revenue and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District.

The statement of net position and the statement of activities report the governmental activities for the School District, which encompass all of the School District's services, including instruction, support services, community services, athletics, and food services. Property taxes, unrestricted state aid (foundation allowance revenue), and state and federal grants finance most of these activities.

Reporting the School District's Most Significant Funds - Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds - not the School District as a whole. Some funds are required to be established by state law and by bond covenants. However, the School District establishes many other funds to help it control and manage money for particular purposes (the Cafeteria Fund would be an example) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as the Sinking Fund used for voter-approved capital projects). The governmental funds of the School District use the following accounting approach:

Governmental Funds - All of the School District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds in a reconciliation.

Lapeer Community Schools of Lapeer County

Management's Discussion and Analysis (Continued)

The School District as Trustee - Reporting the School District's Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for its student activity funds. All of the School District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

The School District as a Whole

Recall that the statement of net position provides the perspective of the School District as a whole. Table I provides a summary of the School District's net position as of June 30, 2015 and 2014:

TABLE I	Governmental Activities	
	June 30	
	2015	2014
	(in millions)	
Assets		
Current and other assets	\$ 15.5	\$ 16.4
Capital assets	<u>68.1</u>	<u>68.8</u>
Total assets	83.6	85.2
Deferred Outflows of Resources	<u>4.5</u>	<u>3.2</u>
Total assets and deferred outflows of resources	88.1	88.4
Liabilities		
Current liabilities	11.0	11.8
Long-term liabilities	51.6	51.4
Net pension liability	<u>68.8</u>	<u>73.2</u>
Total liabilities	131.4	136.4
Deferred Inflows of Resources	<u>5.1</u>	-
Total liabilities and deferred inflows of resources	136.5	136.4
Net Position (Deficit)		
Net investment in capital assets	17.5	17.1
Restricted	1.4	2.1
Unrestricted	<u>(67.3)</u>	<u>(66.8)</u>
Total net position (deficit)	<u>\$ (48.4)</u>	<u>\$ (47.6)</u>

Lapeer Community Schools of Lapeer County

Management's Discussion and Analysis (Continued)

The above analysis focuses on the net position (deficit) (see Table 1). The change in net position (deficit) (see Table 2) of the School District's governmental activities is discussed below. The School District's net position (deficit) was (\$48.4) million at June 30, 2015 and (\$47.6) million at June 30, 2014, as restated. Net investment in capital assets totaling \$17.5 million at June 30, 2015 and \$17.1 million at June 30, 2014 compares the original cost, less depreciation of the School District's capital assets, to long-term debt used to finance the acquisition of those assets. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the School District's ability to use the net position for day-to-day operations. The remaining amount of net position (deficit) (\$67.3 million) was unrestricted.

As required by the Government Accounting Standards Board (GASB), the School District adopted GASB No. 68 and No. 71. These standards required the inclusion of the School District's proportionate share of the Michigan Public School Employees' Retirement Plan within the School District's financial statements, effective July 1, 2014. The effect of the adoption was to decrease July 1, 2014 beginning net position by \$69.6 million and the inclusion of the obligation, and related deferred inflows and outflows, in the June 30, 2015 financial statements. All governments participating in the retirement plan were required to adopt these new standards.

The (\$67.3) million at June 30, 2015 and (\$66.8) million at June 30, 2014 in unrestricted net position (deficit) of governmental activities represents the accumulated results of all past years' operations plus the impact of the adoption of GASB No. 68 and No. 71. The unrestricted net position balance enables the School District to meet working capital and cash flow requirements as well as to provide for future uncertainties. The operating results of the General Fund will have a significant impact on the change in unrestricted net position from year to year.

The results of this year's operations for the School District as a whole are reported in the statement of activities (Table 2), which shows the changes in net position for fiscal years 2015 and 2014.

Lapeer Community Schools of Lapeer County

Management's Discussion and Analysis (Continued)

Net Position (Deficit) - Beginning of year	(47.6)	24.3
Impact of GASB Statement No. 68 and No. 71	-	(69.6)
Net Position (Deficit) - End of year	<u>\$ (48.4)</u>	<u>\$ (47.6)</u>

As reported in the statement of activities, the cost of all of our governmental activities this year was \$57.1 million in 2015 and \$56.9 million in 2014. Certain activities were partially funded from those who benefited from the programs (\$1.4 million in 2015 and \$1.5 million in 2014) or by other governments and organizations that subsidized certain programs with grants and contributions (\$11.1 million in 2015 and \$8.2 million in 2014). We paid for the remaining "public benefit" portion of our governmental activities with \$9.6 million and \$9.8 million in taxes in 2015 and 2014, respectively, \$33.5 million in unrestricted state and federal aid in 2015 and \$34.7 million in 2014, and with our other revenue (i.e., interest and general entitlements).

Lapeer Community Schools of Lapeer County

Management's Discussion and Analysis (Continued)

The School District experienced a decrease in net position of \$0.8 million in 2015 and a decrease of \$2.3 million in 2014. The key reason for the change in net position is a continued decrease in operating income, mainly associated with continued declining enrollment.

As discussed above, the net cost shows the financial burden that was placed on the State and the School District's taxpayers by each of these functions. Since property taxes for operations and unrestricted state aid constitute the vast majority of district operating revenue sources, the Board of Education and administration must annually evaluate the needs of the School District and balance those needs with state-prescribed available unrestricted resources.

The School District's Funds

As we noted earlier, the School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

As the School District completed this year, the governmental funds reported a combined fund balance of \$4.9 million, which is a decrease of \$1.7 million from last year. The primary reason for the decrease was the use of capital funds for the on-going construction of the Athletic Stadium at the West Complex.

In the General Fund, our principal operating fund, the fund balance decreased from \$2.6 million to \$2.5 million. The change is mainly due to decreasing revenue as a result of a budgeted decrease in student enrollment. This decline is due to lower birth rates.

General Fund fund balance is available to fund costs related to allowable school operating purposes. Portions of the General Fund's fund balance have been allocated for certain commitments.

The School District maintains a fund to segregate the voter-approved Sinking Fund millage. The balance of this fund is available to fund specific capital projects allowed by state law and approved by the voters. The fund balance at June 30, 2015 for the Capital Projects Sinking Fund was approximately \$4,000.

During the year, the School District collected taxes authorized by the 2007 Capital Bond in the amount of approximately \$3.8 million. Bond principal and interest payments were made in the amount of \$1.3 million and \$2.5 million, respectively, during the fiscal year, and the fund balance at June 30, 2015 for the 2007 Debt Service Fund was approximately \$1.4 million. This amount is necessary for the payment of bond interest due in November 2015.

Lapeer Community Schools of Lapeer County

Management's Discussion and Analysis (Continued)

General Fund Budgetary Highlights

Over the course of the year, the School District revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. The final amendment to the budget was actually adopted just before year end. A schedule showing the School District's original and final budget amounts compared with amounts actually paid and received is provided in the required supplemental information of these financial statements.

Revisions to the 2014-2015 General Fund original adopted budget include an increase in revenue of \$1.9 million of which \$1.1 million was due to the State's MPSERS UAAL Rate Stabilization (147c) funding that came in higher than originally anticipated. Another \$0.6 million was due to additional funding from the State for Performance Based Funding and Foundation Equity payment.

Budgeted expenditures were increased \$2.5 million due to the MPSERS UAAL Rate Stabilization (147c) of \$1.1 million, \$0.8 million due to staffing and collective bargaining commitments and \$0.5 million for additional curriculum program offerings and their related costs

There were no significant variances between the final budget and actual amounts.

Capital Assets and Debt Administration

Capital Assets

As of June 30, 2015, the School District had \$68.1 million invested in a broad range of capital assets, including land, buildings, vehicles, furniture, and equipment. This amount represents a net decrease (including additions, disposals, and depreciation) of approximately \$0.7 million from last year.

	<u>2015</u>	<u>2014</u>
Land and land improvements	\$ 9,735,457	\$ 9,745,737
Construction in progress	32,901	471,297
Buildings and building improvements	78,902,154	77,484,667
Buses and other vehicles	4,877,336	4,427,489
Furniture and equipment	<u>9,121,459</u>	<u>8,422,599</u>
Total capital assets	102,669,307	100,551,789
Less accumulated depreciation	<u>34,568,552</u>	<u>31,789,045</u>
Net capital assets	<u>\$ 68,100,755</u>	<u>\$ 68,762,744</u>

Lapeer Community Schools of Lapeer County

Management's Discussion and Analysis (Continued)

This year's additions of \$2.1 million included building and equipment, Athletic Complex improvements/construction and equipment and eight new school buses. No debt was issued for these additions.

Additional capital projects are planned for the 2015-2016 fiscal year and include Phase II improvements/construction of the Athletic Complex and four new school buses. We present more detailed information about our capital assets in the notes to the financial statements.

Debt

The School District has one Unlimited Tax Bond obligation outstanding for \$48.0 million whereby repayment is funded by the millage passed for the 2007 bond issue. During the year, taxes were collected in the amount of approximately \$3.8 million and principal and interest payments were made totaling approximately \$3.8 million. In the future, bond issue millage rates will be determined annually to ensure that the School District accumulates sufficient resources to pay annual bond principal and interest payments. The School District also has two separate Limited Tax General Obligation Bonds. These bonds have face values of \$775,000 and \$500,000, and outstanding balances of \$730,000 and \$475,000, respectively. These bonds were used to provide for energy-related improvements throughout the School District as well as to provide funds to assist in the renovations of the high schools and to prefund the building of the Athletic Complex on the West Campus. Repayment of these bonds will come from a combination of energy savings, fundraising activities, and general funds. More detailed information regarding these bonds is presented in Note 7.

Other obligations include accrued vacation pay, sick leave, and capital risk liability. We present more detailed information about our long-term liabilities in the notes to the financial statements.

Economic Factors and Next Year's Budgets and Rates

The School District's Board of Education members and administration begin reviewing revenue and expenditure projections for the 2015-2016 fiscal year early in the 2015 school year for the budget to be adopted by July 1. The budget is developed to support programs and services designed to achieve the goals and objectives of the School District as outlined in the School District's strategic plan. Resources for funding the budget include current year revenue (82 percent from state aid and the foundation allowance) and existing fund balance. With the completion of the 2014-2015 school year, the School District completed the third year of a comprehensive three-year budget plan.

To address the continuing issue of declining birth rates and enrollment, which directly affects our revenue to the School District, the budget process for this year included reducing expenditures \$2.6 million dollars, as one-time adjustments, to mitigate the approximately \$3.0 million dollar operating deficit. A little over half of this amount, \$1.4 million, came from staffing related reductions. The remaining \$1.2 million came from non-instruction related expenditure reductions.

Lapeer Community Schools of Lapeer County

Management's Discussion and Analysis (Continued)

Additionally, the School District settled all of its seven collective bargaining unit agreements before their expiration date of June 30th. A major component of the agreements was to allow steps in salaries for 2015-2016 with a letter of agreement that each unit would engage to jointly study alternate compensation schedules. No later than February 1, 2016, if consensus is reached, the joint study committee will forward a recommendation, to be considered by both bargaining teams, for use in successor agreements.

Contacting the School District's Management

This financial report is intended to provide our taxpayers, parents, and investors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional information, we welcome you to contact the business office.

Notes to Financial Statements June 30, 2015

Note I - Nature of Business and Significant Accounting Policies

The accounting policies of Lapeer Community Schools of Lapeer County (the "School District") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the School District:

Reporting Entity

The School District is governed by an elected seven-member Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate component units of the School District. Based on the application of the criteria, the School District does not contain any component units.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenue, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the School District's government-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments, and other items not properly included among program revenue are reported instead as general revenue.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note I - Nature of Business and Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide Financial Statements - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

When an expense is incurred for purposes for which both restricted and unrestricted net position or fund balance are available, the School District's policy is to first apply restricted resources. When an expense is incurred for purposes which amounts in any of the unrestricted fund balance classifications could be used, it is the School District's policy to spend funds in this order: committed, assigned, and unassigned.

Amounts reported as program revenue include (1) charges to customers or applicants for goods, services, or privileges provided and (2) operating grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes and unrestricted state aid.

Fund Financial Statements - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. Revenue not meeting this definition is classified as a deferred inflow of resources. For this purpose, the School District considers revenue to be available if it is collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, unrestricted state aid, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the School District.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 1 - Nature of Business and Significant Accounting Policies (Continued)

Fiduciary fund statements are also reported using the economic resources measurement focus and the accrual basis of accounting.

The School District reports the following major governmental fund:

General Fund - The General Fund is the School District's primary operating fund. It accounts for all financial resources of the School District, except those required to be accounted for in another fund.

Additionally, the School District reports the following fund types:

Special Revenue Fund - Special revenue funds are used to account for the proceeds of specific revenue sources that are restricted to expenditure for specified purposes. The School District's Special Revenue Fund includes the Cafeteria Fund. Any operating deficit generated by this fund is the responsibility of the General Fund. Revenue sources for the Cafeteria Fund consist of sales to customers, as well as dedicated state and federal grants.

Debt Service Funds - The 2007 Debt Service Fund is used to record tax, interest, and other revenue for payment of interest, principal, and other expenditures of the 2007 bond issue. The 2014 Debt Service Fund and 2013 Debt Service Fund are used to record interest, principal, and other expenditures of the 2014 and 2013 resolution bonds, respectively.

Capital Projects Funds - Capital projects funds are used to report capital project activities. The School District has the following capital projects funds:

Sinking Fund - The Capital Projects Sinking Fund reports capital project activities funded with Sinking Fund millage. For this fund, the School District has complied with the provisions of Section 1212(1) of the State of Michigan School Code.

Sale of Facilities Fund - The Capital Projects Sale of Facilities Fund reports proceeds received from the sale of the School District buildings or other revenue and the disbursement of invoices specifically designated for School District renovation of student facilities. The fund operates until the purpose for which it was created is accomplished.

Athletic Complex Fund - The Athletic Complex Fund reports contributions as revenue and the disbursement of invoices specifically designated for School District athletic facilities. The fund operates until the purpose for which it was created is accomplished.

2007 Bond Issue Fund - The Capital Projects 2007 Bond Issue Fund is used to record bond proceeds or other revenue and the disbursement of invoices specifically designated for acquiring new school sites, buildings, and equipment and for remodeling. The fund operates until the purpose for which it was created is accomplished.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note I - Nature of Business and Significant Accounting Policies (Continued)

Resolution Bond Funds - The 2013 Limited Tax School Building and Site Bonds Capital Project Fund Resolution and the 2014 Limited Tax School Building and Site Bonds Capital Project Fund Resolution funds are used to record bond proceeds or other revenue and the disbursement of invoices specifically designated for capital projects. The funds operate until the purpose for which they were created is accomplished.

Fiduciary Funds - The School District manages certain funds in a fiduciary capacity. These funds are allocated for in private-purpose trust funds or in an Agency Fund.

Agency Fund - The Agency Fund is used to record the transactions of student and community groups for school and school related purposes. The fund is segregated and held in trust for the students.

Private Purpose Trust Fund - The Private Purpose Trust Fund is used to account for resources legally held in trust, including contributions received by the School District to be awarded in the form of scholarships.

Assets, Liabilities, and Net Position or Equity

Cash and Cash Equivalents - Cash and cash equivalents include cash on hand and demand deposits.

Receivables and Payables - In general, outstanding balances between funds are reported as "due to/from other funds." Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "advances to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectible amounts. The School District considers all receivables to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded. Property taxes are assessed as of December 31 and the related property taxes become a lien on December 1 of the following year. These taxes are billed on December 1 for the entire amount of the property taxes. Taxes are considered delinquent on March 1 of the following year. At this time, penalties and interest are assessed and the total obligation is added to the county tax rolls.

Inventories and Prepaid Assets - Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid costs in both government-wide and fund financial statements.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 1 - Nature of Business and Significant Accounting Policies (Continued)

Restricted Assets - The unspent property tax revenue levied for the Sinking Fund, requires amounts to be set aside for construction and other allowable expenditures. In addition, the unspent property taxes levied in the Debt Service Funds are required to be set aside for future bond principal and interest payments. These amounts have been classified as restricted assets.

Capital Assets - Capital assets, which include land, buildings, equipment, and vehicles, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized. The School District does not have infrastructure-type assets.

Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

Buildings and building additions	20 to 50 years
Buses and other vehicles	5 to 10 years
Furniture and other equipment	3 to 10 years

Compensated Absences - The liability for compensated absences reported in the government-wide statements consists of earned but unused accumulated vacation and sick leave benefits. A liability for these amounts is reported in governmental funds as it comes due for payment. The liability has been calculated using the vesting method, in which leave amounts for both employees who are currently eligible to receive termination payments at normal retirement age and other employees who are expected to become eligible in the future to receive such payments upon normal retirement are included.

Long-term Obligations - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as debt service expenditures.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 1 - Nature of Business and Significant Accounting Policies (Continued)

The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources - In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position or fund balance that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District only has one item that qualifies for reporting in this category. It is the deferred outflow related to the pension plan.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The School District only has one item that qualifies for reporting in this category. It is the deferred inflow related to the pension plan.

Fund Balance - In the fund financial statements, governmental funds report the following components of fund balance:

- **Nonspendable:** Amounts that are not in spendable form or are legally or contractually required to be maintained intact.
- **Restricted:** Amounts that are legally restricted by outside parties, constitutional provisions or enabling legislation for use for a specific purpose.
- **Committed:** Amounts that have been formally set aside by the Board of Education for use for use for specific purposes. Commitments are made and can be rescinded only via resolution of the Board of Education.
- **Assigned:** Intent to spend resources on specific purposes expressed by the Board of Education.
- **Unassigned:** Amounts that do not fall into any other category above. This is the residual classification for amounts in the General Fund and represents fund balance that has not been assigned to other funds and has not been restricted, committed, or assigned to specific purposes in the General Fund. In other governmental funds, only negative unassigned amounts are reported, if any, and represent expenditures incurred for specific purposes exceeding the amounts previously restricted, committed, or assigned to those purposes.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 1 - Nature of Business and Significant Accounting Policies (Continued)

The Board of Education has set a target fund balance as 10 percent of expenditures in the General Fund. This is deemed to be the prudent amount to maintain the School District's ability to meet obligations as they come due throughout the year.

Comparative Data - Comparative data is not included in the School District's financial statements.

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public School Employees' Retirement System (MPERS) and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. MPERS uses the economic resources measurement focus and the full accrual basis of accounting. Contribution revenue is recorded as contributions are due, pursuant to legal requirements. Benefit payments (including refunds of employee contributions) are recognized as expense when due and payable in accordance with the benefit terms. Related plan investments are reported at fair value.

Adoption of New Standard – The GASB issued GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. Statement No. 68 requires governments providing defined benefit pensions to recognize their unfunded pension benefit obligation as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. Statement No. 71 is a clarification to GASB No. 68 requiring a government to recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. The statements also enhance accountability and transparency through revised note disclosures and required supplemental information (RSI). In accordance with the statements, the School District has reported a net pension liability of \$73,150,114 and a beginning deferred outflow for pension contributions of \$3,548,170 made subsequent to the September 30, 2013 measurement date, as a change in accounting principle adjustment to unrestricted net position as of July 1, 2014.

Net position at June 30, 2014	\$ 22,011,061
Net pension liability	(73,150,114)
Deferred outflow for pension contributions	<u>3,548,170</u>
Net position at June 30, 2014 - As restated	<u>\$ (47,590,883)</u>

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 2 - Stewardship, Compliance, and Accountability

Budgetary Information - Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America and state law for the General Fund and Special Revenue Fund. All annual appropriations lapse at fiscal year end.

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. State law requires the School District to have its budget in place by July 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits districts to amend their budgets during the year. During the year, the budget was amended in a legally permissible manner. For budgeting purposes, capital outlay is classified within the related function and athletics is included within central services. Capital outlay and athletics are segregated on the statement of revenue, expenditures, and changes in fund balances. Additionally, for budgeting purposes, proceeds from the sale of capital assets are classified within local revenues. Proceeds are segregated on the statement of revenue, expenditures, and changes in fund balances.

Encumbrances (e.g., purchase orders, contracts) outstanding at year end do not constitute expenditures or liabilities because the goods or services have not been received as of year end; the commitments will be reappropriated and honored during the subsequent year.

Excess of Expenditures Over Appropriations in Budgeted Funds - The School District did not have significant expenditure budget variances.

Capital Projects Fund Compliance - The Capital Projects 2007 Bond Issue Fund includes capital project activities funded with bonds issued after May 1, 1994. For this capital project, the School District has complied with the applicable provisions of §1351a of the State of Michigan's School Code.

The Capital Projects Sinking Fund records capital project activities funded with the Sinking Fund millage. For this fund, the School District has complied with the applicable provisions of §1212(1) of the State of Michigan's School Code.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 3 - Deposits and Investments

State statutes and the School District's investment policy authorize the School District to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The School District is also allowed to invest in U.S. Treasury or agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The School District's deposits are in accordance with statutory authority.

The School District has designated two banks for the deposit of its funds.

The investment policy adopted by the board in accordance with state statutes has authorized investment in all the allowable investment vehicles noted above.

The School District's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District's investment policy requires that financial institutions be evaluated and only those with an acceptable risk level be used for the School District's deposits for custodial credit risk. As of year end, the School District's deposit balance of \$9,038,727 included \$8,514,993 of bank deposits (checking and savings accounts) that were uninsured and uncollateralized. The School District evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial Credit Risk of Investments - Custodial credit risk of investments is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of the outside party. The School District's policy for custodial credit risk states custodial credit risk will be minimized by limiting investments to the types of securities allowed by state law, and by pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisors with which the School District will do business using the criteria established in the investment policy. At June 30, 2015, the School District did not have investments with custodial credit risk.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 3 - Deposits and Investments (Continued)

Interest Rate Risk - Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The School District's investment policy does not restrict investment maturities, other than commercial paper, which can only be purchased with a 270-day maturity. The School District's policy minimizes interest rate risk by requiring the structuring of the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market, investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools, and limiting the average maturity in accordance with the School District's cash requirements.

Credit Risk - State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The School District's investment policy does not further limit its investment choices.

Concentration of Credit Risk - The School District places no limit on the amount the School District may invest in any one issuer. The School District's policy minimizes concentration of credit risk by requiring diversification of the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized. The School District has no investments as of June 30, 2015.

Foreign Currency Risk - Foreign currency risk is the risk that an investment denominated in the currency of a foreign country could reduce its U.S. dollar value as a result of changes in foreign currency exchange rates. State law and the School District's policy prohibit investment in foreign currency.

Note 4 - Receivables and Unavailable/Unearned Revenue

Receivables as of year end for the School District's individual major and nonmajor funds, in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General Fund	Nonmajor Governmental Funds	Total
Receivables:			
Taxes	\$ 3,651	\$ 19,225	\$ 22,876
Accounts receivable	16,829	-	16,829
Intergovernmental	7,537,832	99,894	7,637,726
Total receivables	<u>\$ 7,558,312</u>	<u>\$ 119,119</u>	<u>\$ 7,677,431</u>

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 4 - Receivables and Unavailable/Unearned Revenue (Continued)

Governmental funds report unavailable revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also report unearned revenue in connection with resources that have been received but not yet earned. At the end of the current fiscal year, there was no unavailable revenue and there was unearned revenue related to grant and categorical aid payments received prior to meeting all eligibility requirements in the amount of \$133,690.

Note 5 - Capital Assets

Capital asset activity of the School District's governmental activities was as follows:

Governmental Activities	Balance July 1, 2014	Additions and Adjustments	Disposals and Adjustments	Balance June 30, 2015
Capital assets not being depreciated:				
Land	\$ 993,061	\$ -	\$ -	\$ 993,061
Construction in progress	471,297	32,901	471,297	32,901
Subtotal	1,464,358	32,901	471,297	1,025,962
Capital assets being depreciated:				
Land improvements	8,752,676	-	10,280	8,742,396
Building and building improvements	77,484,667	1,417,487	-	78,902,154
Furniture and equipment	8,422,599	710,860	12,000	9,121,459
Buses and other vehicles	4,427,489	449,847	-	4,877,336
Subtotal	99,087,431	2,578,194	22,280	101,643,345
Accumulated depreciation:				
Land improvements	2,521,043	394,666	10,280	2,905,429
Buildings and improvements	22,317,272	1,545,834	-	23,863,106
Furniture and equipment	3,671,524	552,801	10,733	4,213,592
Buses and other vehicles	3,279,206	307,219	-	3,586,425
Subtotal	31,789,045	2,800,520	21,013	34,568,552
Net capital assets being depreciated	67,298,386	(222,326)	1,267	67,074,793
Net capital assets	\$ 68,762,744	\$ (189,425)	\$ 472,564	\$ 68,100,755

Depreciation expense was not charged to activities as the School District considers its assets to impact multiple activities and allocation is not practical.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 6 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances is as follows:

Fund Due To	Fund Due From		
	Nonmajor Governmental Funds	Agency Fund	Total
General Fund	\$ 17,649	\$ 22,886	\$ 40,535
Nonmajor governmental funds	14,000	-	14,000
Total	<u>\$ 31,649</u>	<u>\$ 22,886</u>	<u>\$ 54,535</u>

These balances result from the time lag between the dates that goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made. The due to/from between capital projects funds was to shift the fund dollars used for an expenditure to use up the Sinking Fund balance.

Interfund Transfer

Transfers of \$103,330 from the General Fund to the 2013 Project Bond Debt Service Fund and the 2014 Project Bond Debt Service Fund covered the principal and interest payments owed on the bonds.

Note 7 - Long-term Debt

The School District issues bonds to provide for the acquisition and construction of major capital facilities and the acquisition of certain equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. Other long-term obligations include compensated absences and certain risk liabilities.

Long-term debt activity can be summarized as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities					
Bonds	\$ 50,555,000	\$ -	\$ 1,375,000	\$ 49,180,000	\$ 1,450,000
Bond premium	1,481,843	-	65,860	1,415,983	65,860
Total bonds payable	52,036,843	-	1,440,860	50,595,983	1,515,860
Other obligations	962,300	1,014,102	987,902	988,500	204,838
Total governmental activities	<u>\$ 52,999,143</u>	<u>\$ 1,014,102</u>	<u>\$ 2,428,762</u>	<u>\$ 51,584,483</u>	<u>\$ 1,720,698</u>

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 7 - Long-term Debt (Continued)

Annual debt service requirements to maturity for the above governmental bond obligations are as follows:

Years Ending June 30	Governmental Activities		
	Principal	Interest	Total
2016	\$ 1,450,000	\$ 2,451,481	\$ 3,901,481
2017	1,530,000	2,382,542	3,912,542
2018	1,605,000	2,308,012	3,913,012
2019	1,680,000	2,229,732	3,909,732
2020	1,755,000	2,147,702	3,902,702
2021-2025	10,035,000	9,348,160	19,383,160
2026-2030	12,350,000	6,552,213	18,902,213
2031-2035	13,350,000	3,368,750	16,718,750
2036-2037	5,425,000	407,500	5,832,500
Total	<u>\$ 49,180,000</u>	<u>\$ 31,196,092</u>	<u>\$ 80,376,092</u>

Governmental Activities

General obligation bonds consist of the following:

\$55,205,000 - 2007 General Obligation Bonds due in annual installments of \$1,375,000 to \$2,725,000 through May 2037; interest at 4.75 percent to 5.25 percent	\$ 47,975,000
\$500,000 - Limited Tax School Building and Site Bonds due in annual installments of \$30,000 to \$40,000 through May 2029; interest at 2.60 percent	475,000
\$775,000 - Limited Tax School Building and Site Bonds due in annual installments of \$45,000 to \$65,000 through May 2028; interest at 1.72 percent to 3.62 percent	<u>730,000</u>
Total bonded debt	<u>\$ 49,180,000</u>

Other governmental activities long-term obligations include the following:

Employee compensated absences	\$ 280,800
Risk liability	<u>707,700</u>
Total	<u>\$ 988,500</u>

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 8 - Risk Management

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The School District has purchased commercial insurance for medical benefits, certain property loss, and errors and omissions claims and participates in the MAISL shared-risk pool for claims relating to property loss and torts; the School District is self-insured for dental and vision. The School District is uninsured up to a \$300,000 specific occurrence retention limit for employee injuries (workers' compensation) claims. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years. The shared-risk pool program in which the School District participates operates as a common risk-sharing management program for school districts in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

The School District estimates the liability for employee injury claims and for dental and vision benefits that have been incurred through the end of the fiscal year, including both those claims that have been reported as well as those that have not yet been reported. These estimates are recorded in the government-wide statements. Changes in the estimated liability for the past two fiscal years were as follows:

	<u>2015</u>	<u>2014</u>
Estimated liability - Beginning of year	\$ 680,900	\$ 485,400
Estimated claims incurred - Including changes in estimates	900,102	997,030
Claim payments	<u>(873,302)</u>	<u>(801,530)</u>
Estimated liability - End of year	<u>\$ 707,700</u>	<u>\$ 680,900</u>

Note 9 - Restricted Assets

The balances for the restricted asset accounts are as follows:

	<u>Governmental Activities</u>
Unspent bond and sinking fund proceeds and related interest	\$ 36,542
Monies reserved to pay off future debt	<u>1,420,663</u>
Total restricted assets	<u>\$ 1,457,205</u>

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 10 - Michigan Public School Employees' Retirement System

Plan Description - The School District participates in the Michigan Public School Employees' Retirement System (MPSERS or the "System"), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District. The System provides retirement, survivor, and disability benefits to plan members and their beneficiaries. The System also provides postemployment healthcare benefits to retirees and beneficiaries who elect to receive those benefits.

The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplemental information for the pension and postemployment healthcare plans. That report is available on the web at <http://www.michigan.gov/orsschools>, or by writing to the Office of Retirement System (ORS) at 7150 Harris Drive, P.O. Box 30171, Lansing MI 48909.

Contributions - Public Act 300 of 1980, as amended, required the School District to contribute amounts necessary to finance the coverage of pension benefits of active and retired members. Contribution provisions are specified by state statute and may be amended only by action of the State Legislature. Under these provisions, each school district's contribution is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance a portion of the unfunded accrued liability.

School District's contributions are determined based on employee elections. There are seven different benefit options included in the plan available to employees based on date of hire. Contribution rates are adjusted annually by the ORS.

The range of rates are as follows:

School District

July 1, 2013 - September 30, 2013	12.78% - 16.25%
October 1, 2013 - September 30, 2014	15.44% - 18.34%
October 1, 2014 - June 30, 2015	18.76% - 23.07%

Depending on the plan selected, plan member contributions range from 0 percent up to 7.0 percent of gross wages. Plan members electing into the defined contribution plan are not required to make additional contributions.

The School District's required and actual contributions to the plan for the years ended June 30, 2015 and 2014 were \$7,211,926 and \$5,890,475, respectively. Contributions include \$2,364,647 and \$1,657,138 revenue received from the State of Michigan, and remitted to the system, to fund the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate for the year ended June 30, 2015.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 10 - Michigan Public School Employees' Retirement System (Continued)

Benefits Provided - Benefit provisions of the defined benefit pension plan are established by state statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan.

Depending on the plan option selected, member retirement benefits are calculated as final average compensation times years of service times a pension factor ranging from 1.25 percent to 1.50 percent. The requirements to retire range from attaining the age of 46 to 60 with years of service ranging from 5 to 30 years, depending on when the employee became a member. Early retirement is computed in the same manner as a regular pension, but is permanently reduced 0.50 percent for each full and partial month between the pension effective date and the date the member will attain age 60. There is no mandatory retirement age.

Members are eligible for non-duty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction. The disability benefits plus authorized outside earnings are limited to 100 percent of the participant's final average compensation with an increase of 2 percent each year thereafter.

Benefits may transfer to a beneficiary upon death and are determined in the same manner as retirement benefits, but with an actuarial reduction.

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. The annual adjustment, if applicable, is 3 percent. For some members who do not receive an annual increase, they are eligible to receive a supplemental payment in those years when investment earnings exceed actuarial assumptions.

Net Pension Liability, Deferrals, and Pension Expense - At June 30, 2015, the School District reported a liability of \$68,803,150 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2014 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2013 which used updated procedures to roll forward the estimated liability to September 30, 2014. The School District's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2014, the School District's proportion was 0.31237 percent, which, in the year of adoption, is unchanged from the proportion measured as of September 30, 2013.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 10 - Michigan Public School Employees' Retirement System (Continued)

For the year ended June 30, 2015, the School District recognized pension expense of \$4,615,116, exclusive of payments to fund the MPSERS UAAL Stabilization Rate. At June 30, 2015, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources Subsequent to Measurement Date	Net Deferred Inflows (Outflows) of Resources as of the Measurement Date
Difference between expected and actual experience	\$ -	\$ -
Changes of assumptions	-	(2,538,741)
Net difference between projected and actual earnings on pension plan assets	-	7,606,369
Changes in proportion and differences between the School District's contributions and proportionate share of contributions	-	1,091
The School District's contributions subsequent to the measurement date	<u>4,506,127</u>	<u>-</u>
Total	<u>\$ 4,506,127</u>	<u>\$ 5,068,719</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending June 30	Amount
2016	\$ 1,241,726
2017	1,241,726
2018	1,241,726
2019	<u>1,343,541</u>
Total	<u>\$ 5,068,719</u>

In addition, the contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the next year.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 10 - Michigan Public School Employees' Retirement System (Continued)

Actuarial Assumptions - The total pension liability as of September 30, 2014 is based on the results of an actuarial valuation date of September 30, 2013 and rolled forward:

Actuarial cost method	Entry age normal cost actuarial cost method
Assumed rate of return	7.00 to 8.00 percent, net of investment and administrative expenses based on the groups
Rate of pay increases	3.50 percent
Mortality basis	RP-2000 Combined Healthy Mortality Table, adjusted for mortality improvements to 2025 using projection scale BB

The actuarial assumptions used for the September 30, 2013 valuation were based on the results of an actuarial experience study for the period from October 1, 2007 to September 30, 2012. As a result of this study, the actuarial assumptions were adjusted to more closely reflect actual experience.

Discount Rate - The discount rate used to measure the total pension liability was 7.00 to 8.00 percent, depending on the plan option selected. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions will be made at contractually required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 10 - Michigan Public School Employees' Retirement System (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Investment Category	Target Allocation	Long-term Expected Real Rate of Return
Domestic equity pools	28 %	4.8 %
Private equity pools	18 %	8.5 %
International equity pools	16 %	6.1 %
Fixed-income pools	10 %	1.5 %
Real estate and infrastructure pools	10 %	5.3 %
Real return, opportunistic, and absolute pool	16 %	6.3 %
Short-term investment pools	2 %	(0.2)%
Total	100 %	

Sensitivity of the Net Pension Liability to Changes in the Discount Rate - The following presents the net pension liability of the School District, calculated using the discount rate of 7.00 to 8.00 percent, depending on the plan option, as well as what the School District's net pension liability would be if it were calculated using a discount rate that is 1.00 percentage point lower or 1.00 percentage point higher than the current rate:

1.00 Percent Decrease (7.00/6.00 Percent)	Current Discount Rate (8.00/7.00 Percent)	1.00 Percent Increase (9.00/8.00 Percent)
\$ 90,712,780	\$ 68,804,529	\$ 50,346,504

Pension Plan Fiduciary Net Position - Detailed information about the pension plan's fiduciary net position is available in the separately issued MPSERS financial report.

Payable to the Pension Plan - At June 30, 2015, the School District reported a payable of \$713,642 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2015.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 10 - Michigan Public School Employees' Retirement System (Continued)

Postemployment Benefits Other Than Pensions (OPEB) - Under the MPSERS act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental, and vision coverage through MPSERS. Retirees electing this coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent, or 20 percent for those not Medicare eligible, of the monthly premium amount for the health, dental, and vision coverage at the time of receiving the benefits. The MPSERS board of trustees annually sets the employer contribution rate to fund the benefits on a pay-as-you-go basis. Participating employers are required to contribute at that rate. School District - The employer contribution rate ranged from 5.52 percent to 6.45 percent of covered payroll for the period from July 1, 2014 to September 30, 2014 and from 2.20 percent to 2.71 percent of covered payroll for the period from October 1, 2014 through June 30, 2015 dependent upon the employee's date of hire and plan election as noted above. Members can choose to contribute 3 percent of their covered payroll to the Retiree Healthcare Fund and keep this premium subsidy benefit or they can elect not to pay the 3 percent contribution and instead choose the Personal Healthcare Fund, which can be used to pay healthcare expenses in retirement. Members electing the Personal Healthcare Fund will be automatically enrolled in a 2 percent employee contribution into their 457 account as of their transition date and create a 2 percent employer match into the employee's 403B account.

The School District's required and actual contributions to the plan for retiree healthcare benefits for the years ended June 30, 2015, 2014, and 2013 were \$1,710,540, \$1,814,582, and \$2,324,545, respectively.

Note 11 - State Aid Anticipation Note

On August 20, 2014, Lapeer Community Schools of Lapeer County borrowed \$9 million in a state aid anticipation note. The note bears interest at a rate ranging from 0.42 to 1.24 percent. A total of \$3.75 million of this note is due on August 20, 2015 and the remaining \$5.25 million is due in monthly installments including interest ranging from \$750,245 to \$759,188 from January 20, 2015 through July 20, 2015.

Note 12 - Subsequent Events

On August 20, 2015, Lapeer Community Schools of Lapeer County borrowed \$9 million in a state aid anticipation note. The notes bear interest at a rate ranging from 0.64 percent to 1.46 percent. A total of \$3.75 million of this note is due on August 22, 2016 and the remaining \$5.25 million is due in monthly installments including interest ranging from \$750,541 to \$765,784 from January 20, 2016 through July 20, 2016.

Lapeer Community Schools of Lapeer County

Notes to Financial Statements June 30, 2015

Note 12 - Subsequent Events (Continued)

On September 29, 2015 Lapeer Community Schools of Lapeer County issued \$995,000 of Limited Tax School Building and Site Bonds at an interest rate ranging from 3 percent to 4 percent, due in annual installments ranging from \$60,000 to \$88,000 through May 1, 2030. Repayment is funded from general operating revenues of the School District.

Note 13 - Upcoming Accounting Pronouncements

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which addresses reporting by governments that provide postemployment benefits other than pensions (OPEB) to their employees and for governments that finance OPEB for employees of other governments. This OPEB standard will require the School District to recognize on the face of the financial statements its proportionate share of the net OPEB liability related to its participation in the MPSERS plan. The statement also enhances accountability and transparency through revised note disclosures and required supplemental information (RSI). The School District is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the School District's financial statements for the year ending June 30, 2018.
